

Michelle Chen •

Product Designer · End-to-End Design Systems

Tempe, AZ • 602-607-9725 • yche1356@asu.edu • themichellechen.com • linkedin.com/in/mchen0727

Analytical product designer with 3+ years steering the end-to-end product lifecycle for enterprise SaaS applications, data-dense web systems, and complex user-centered digital ecosystems. Specialized in HCI methodologies—converting quantitative analytics and intricate information architecture into scalable design components that bridge user intent and front-end engineering execution.

• Experience

UX/UI Designer

Jun 2025 – May 2026

VisLab · Arizona State University, Tempe, AZ

- Architected a scalable digital ecosystem across 5+ multi-tenant Drupal web applications; engineered a modular component library balancing departmental branding autonomy with institutional design standards
- Spearheaded end-to-end product design for an EdTech water-resource platform; translated complex environmental data models into accessible, interactive user interfaces
- Formulated user research frameworks—moderated usability engineering tests and heuristic evaluations with academic stakeholders—to validate iterative feature improvements
- Partnered cross-functionally with engineers and content strategists in agile sprints to define scope, mitigate design debt, and secure 100% on-schedule web application deployment

UI/UX Designer

Oct 2023 – Sep 2024

M-think Technology · Taiwan

- Engineered a data-driven optimization framework synthesizing quantitative user data and qualitative feedback, yielding a 15% surge in core task success rates
- Partnered with PMs and engineers to scope technical requirements, author interactive design specifications, and deliver modular components within agile sprint cadences
- Mitigated design-to-development friction, reducing post-release interface defects by ~30% through localized cross-platform QA before engineering handoff

Product Designer

May 2022 – Feb 2023

Independent Design Client Projects · Taiwan

- Directed complete product design lifecycle for client e-commerce and web applications—research, wireframing, high-fidelity prototyping, and production delivery—driving a 35% increase in user inquiries
- Managed shifting stakeholder requirements across 3–5 structured review cycles, adapting interaction layouts while protecting scope and launch timelines
- Implemented systemic SEO architecture and UX accessibility patterns grounded in usability findings, expanding organic acquisition traffic and engagement

• Education

M.S. in User Experience / Human-Computer Interaction

Arizona State University, Tempe, AZ

Graduation: May 2026 · GPA 4.0/4.0

B.A. in Cultural Heritage Conservation

National Yunlin University of Science & Technology, Taiwan

Graduation: Feb 2021 · GPA 3.75/4.0

• Selected Projects

Pic2Split

AI-Powered Fintech SaaS · OCR Receipt Scanning & Google Gemini

- Architected end-to-end product lifecycle for a shipped AI web app; reduced split time from 4-min baseline to under 2 min (2× faster, ~2 min saved) via OCR, Google Gemini, and streamlined tax/tip flows
- Engineered multi-state flows in Figma mapping OCR review, tax/tip distribution, and split edge cases to minimize cognitive load and dropout

AI Product OCR Product Lifecycle

Indigenous Cultural Museums

Multi-Site Cultural Portal · IA & Product Design

- Directed product design for a 30-museum digital ecosystem—IA, wireframes, and high-fidelity UI aligned to government accessibility requirements
- Structured community-driven navigation (place, lineage, seasonal events) so users discover content without search-heavy paths

Information Architecture Product Lifecycle WCAG 2.1/2.2

• Awards & Volunteer

Student Adobe Ambassador

2025

Adobe · Arizona State University
Represent Adobe on campus—hosting creative-tool workshops and demos and helping student designers learn industry-standard workflows.

Product / UX Design

2023

Toastmasters International · Taiwan
Led UX audits, IA restructuring, and a website redesign that reduced homepage bounce rate by 20%.

\$10,000 New American University Scholarship

2024

Arizona State University

People's Choice Award · Endstar Game Maker Spark Challenge

2025

Arizona State University

2nd Place Winner · RoseHack

2025

UC Riverside

• Skills

Research & Strategy

User-Centered Design, Usability Engineering Testing, Heuristic Evaluation, User Journey Mapping, Information Architecture, Data Collection, Quantitative/Qualitative Analysis

Design & Prototyping

Interaction Design, High-Fidelity Mockups, Wireframing, Rapid Prototyping, Design Systems, Typography, Component Architecture

Tools & Platforms

Figma, Claude Code, Cursor, Drupal, Adobe Creative Suite, Git

Technical Standards & Code

HTML5, CSS3, Web Accessibility Standards (WCAG 2.1/2.2 Compliance), AI Agent Interaction Design
