

Michelle Chen

PRODUCT DESIGNER · END-TO-END DESIGN · USER RESEARCH & METRICS

Tempe, AZ 602-607-9725 yche1356@asu.edu themichellechen.com linkedin.com/in/mchen0727

Product designer with 3+ years owning the full design lifecycle — from user research and problem framing to shipped product — across web apps, mobile concepts, and enterprise platforms. Driven by measurable outcomes, fluent in cross-functional collaboration, and comfortable navigating ambiguity from discovery to delivery. M.S. in HCI at ASU (GPA 4.0).

EXPERIENCE

UX/UI Designer

Jun 2025 – May 2026

VisLab · Arizona State University, AZ

- Owned end-to-end design of web experiences — from stakeholder brief to shipped product — applying ASU's design system and WCAG 2.1 AA standards for 3+ client projects
- Ran user research and moderated usability tests to surface insights, validate design decisions, and drive iterative product improvements
- Collaborated with engineers, content strategists, and stakeholders to define scope, align on priorities, and ship on schedule

UI/UX Designer

Oct 2023 – Sep 2024

M-think Technology · Taiwan

- Established a data-informed iteration loop — synthesizing user analytics and feedback — driving a 15% improvement in task success rates
- Partnered with PMs and engineers to scope requirements, write design specs, and deliver components within agile sprint cadences
- Reduced interface defects by ~30% by embedding cross-platform QA into the design review process before handoff

Product / UX Designer · Volunteer

Mar 2023 – Sep 2023

Toastmasters International · Taiwan

- Diagnosed UX failures through user interviews and a content audit; proposed and executed a full information architecture restructure to align with member needs
- Led redesign from research to launch using Figma and HTML/CSS, cutting bounce rate by 20%
- Redesigned navigation and interactive components to reduce friction in key member task flows

Product Designer · Client Projects

May 2022 – Feb 2023

Self-employment · Taiwan

- Owned the complete product design lifecycle for two client websites — user research, IA, wireframes, prototypes, and delivery — increasing inquiries by 35%
- Navigated shifting requirements across 3–5 structured feedback cycles, adapting designs while keeping scope and timeline intact
- Applied SEO and UX improvements grounded in usability findings, measurably growing organic traffic and user engagement

SELECTED PROJECTS

Pic2Split

EDUCATION

M.S. in User Experience / HCI

Arizona State University, Tempe, AZ

May 2026 · GPA 4.0/4.0

B.A. in Cultural Heritage Conservation

National Yunlin University of Science & Technology, Taiwan

Feb 2021 · GPA 3.75/4.0

AWARDS

People's Choice Award · Endstar Game Maker Spark Challenge (ASU & Endless Games, 2025)

2nd Place · RoseHack, UC Riverside (2025)

SKILLS

Product Design

End-to-End Design, Design Systems, Information Architecture, Journey Mapping, Metrics-Driven Iteration

Research

User Interviews, Usability Testing, Affinity Mapping, Heuristic Evaluation, Problem Framing

Tools & Collab

Figma, Illustrator, HTML5/CSS3, Agile/Scrum, Stakeholder Management, AI-assisted tools

CERTIFICATES

IRB – Social and Behavioral Research (Group 2) · CITI Program, 2026

Spark Challenge Skill Badge: UX Design · ASU, 2025

Foundations of UX Design · Google / Coursera, 2024

Responsive Web Design Developer Certification · freeCodeCamp, 2022
